

## LET ME DO THE MATH FOR BIJOU TILES

Making projects with the Bijou size tiles from Zentangle® means working in miniature. Miniature books are less than 3" (8cm) in height, width or depth. Working in miniature requires careful selection of paper. Choose papers that are going to take a crisp fold, be strong enough to support the tiles and that have very little bulk. Working in miniature also requires more careful folding and you may find that you want to use finer tools. For example, I use a fine dry embossing stylus instead of a bone folder to score lines when I am working in miniature and I use a delicate pair of finely pointed scissors instead of my usual paper scissors.

Project	Cutting Size	Notes
Tile Folder	9" x 6 3/4" (23 cm x 17 cm)	
Crisscross Folder	18 1/8" x 2 1/4" (46 cm x 5.7 cm)	Use a 1/8" (.3 cm) spine
Presentation Envelope	4 circles 2 1/4" (5.7 cm)	
Origami Box	Bottom 6 1/4" x 6 1/4" (15.9 cm x 15.9 cm) Lid 6 1/2" x 6 1/2" (16.5 cm x 16.5 cm)	Don't use a heavy paper and the lid size may need to be adjusted depending on paper weight.
Origami Pocket Book	18" x 6 3/4" (45.7 cm x 17 cm)	
Diamond Reveal	9 3/4" x 3 1/4" (24.8 cm x 8.3 cm)	
Leporello's Pockets	18" x 6 3/4" (45.7 cm x 17 cm)	In Step 5 fold a hem of about 1" (2.5 cm) on the bottom fold up in order to use pocket.
Tile Carousel	8" x 3 1/8" (20.3 cm x 7.9 cm)	Use a very lightweight paper that takes crisp folds like gelli printed deli paper, wrapping paper etc.
